## Severe Winter Storm Grips Pass; Railroad Only Means Transport; Roads Blocked

Mines Idle Due to Lack of Power; Coal Deliveries To Consumers Made By Sleigh; Doctors Working Under Severe Handicap; Milk Deliveries To Cafes Only.

The Crows Nest Pass was caught in one of the worst winter storms in many years as snow three feet or more piled up from a continuous snow storm that lasted from early Sunday to late Monday night and again on Tuesday morning. The temperature in Coleman Monday morning was 5 degrees above and on Tuesday morning it went into a nose-dive to hit 14 below. Tuesday morning offered no break in the storm.

The temperature dropped to 28 below zero this Thursday morning.

## Mines Idle

Due to the heavy snow storm East Kootenay Power Company was unable to supply sufficient power to Pass mines with the result that all mines were idle with the exception of McGillivray Creek. On Tuesday morning all mines remained idle. Local consumers, caught with low stocks of coal, started to phone for additional coal supplies so the companies met the challenge by putting horse and sleigh into service. Trucks being unable to navigate the snow blocked roads.

## Roads Blocked

All highways east and west of the town were blocked. The town's snowplow, with Joe Malanchuk at the wheel was out at 4 o'clock Monday morning to clear main and residential streets. The strain on the plow was too severe however and it broke down. A bulldozer was put to work on the streets but it apparently failed to accomplish the work required as it soon disappeared. The town plow came back in the evening and did some good work in partially opening some of the main residential streets. Due to the death Monday evening of Mrs. C. F. Dunlop on Third street the plow was called

to open third street.

Monday two trucks from the Pass Dairy reached Coleman with milk supplies and were left stranded here as the drivers took other means to get home. A third truck is in the ditch between Coleman and Blairmore.

The government plow failed to make its appearance and it is not known whether it is still in usable shape or not. It was being used Sunday night at about 11 o'clock in the Crows Nest Lake area.

## Schools Out

Due to blocked roads and continuous snow fall the school attendance was affected Monday morning. Those hardy youngsters who braved the storm were promptly sent home by the teachers who feared for their safety should the storm continue heavily and make walking even more difficult. The high school remained in class for a short period when it was decided to send the students home. On Tuesday morning the entire school was closed.

## Doctors Handicapped

The local doctors were among those who were working under the severest strain. Due to blocked roads they were unable to use their cars and were to be seen during the day and late at night, with black bag in hand, trudging through the heavy snow trying as best they could to reach the sick.

One or two grocery truck drivers tried to buck the snow but soon decided that it was an impossible task and sought shelter of their garages. Joe Kapalka, of The Friendly Store, was seen Monday noon trying to deliver goods on foot.

Those residents of Carobndale and Willow drive were completely isolated. The roads were blocked and it was quite some distance to the nearest grocery store.

This week is probably the first in a great many years that Joe Plante has been unable to make his daily rounds with freight and express.

## Caught At Gap

On Sunday morning at 10 o'clock three cars containing Jim Kerr, Percy Knowles, Andy Dow, Walter Picairn, of Calgary, Carl Sapeta and Johnny Kerr, of Frank, left the Pass for a big game hunting expedition to the South Fork country. They were caught in the storm and reached shelter at the Ranger's station at the Gap. Jim Kerr phoned his wife that they were in no danger. It is understood however that until the road is cleared they will be the rangers' guests for some days.

## Trains Getting Through

Trains were the only transport getting through. Despite the fact that schedules were impossible to adhere to the passenger and freight trains were plowing their way over heavy track and providing the only link with outside districts. Travelers from town who had been using bus transportation were forced to return by train.

## Depot Packed With Goods

The local CPR depot is packed with freight and express, crates even overflowing into the waiting room. The situation is such that the depot is unable to accommodate more and the agent gave the town up to 2 p.m. Wednesday to get a road to the depot or he would be forced to halt shipments from Calgary and Lethbridge to Coleman. Fruit and vegetables, candy and other goods of a perishable nature, were being stored and it was feared that should they be allowed to remain for an indefinite period they would spoil.

## Snow Slide

Joe Hanrehan, government road man who has been handling the snow plow, arrived in town by train Wednesday morning from Crows Nest. He was accompanied

### L. S. Richards President Grands Hockey Club

Ray Spillers Takes Over Secretarial Duties; Club Enters Football League Comprising Nine Clubs.

The annual general meeting of Coleman Grands Intermediate hockey club was held in the Grand Union on Sunday afternoon, president Ray Spillers presiding.

L. S. Richards reported on his trip to Charlsholm last week where he was successful in securing entry into the league of the local club. Blairmore was also successful with the result that a nine club league has been formed. The schedule will be based on home and home games with a 6-team league play-off for the championship. Each club has to place a \$50 deposit with the league secretary. \$10 of this amount is for affiliation fee while the balance is held in trust. Should a team fail to honor its schedule the \$40 will be awarded to the team whom the first team was to have played. A second \$40 must also be given by the offending team to the team whom it was to have played before the offending team can continue in the league. The schedule is to be drawn up by the league executive on or about Dec. 1 with all teams being asked to forward suggestions regarding the schedule before that date.

President Spillers gave a detailed report of his trip to the Alberta Hockey Association meeting in Edmonton. He urged that the club be constantly represented at these annual meetings as they were most beneficial to the club. The same play-off system as that of last year will be employed in the provincial play-offs. Mr. Spillers stated he was successful in

## Committee Appointed To Stir Up Interest In Civic Centre Project

All Local Organizations To Be Asked To Have Representation On Key Committee; Estimate \$40,000 Required.

On Thursday evening a rather disappointing number of sports enthusiasts and citizens generally attended a special public meeting of Coleman Sports Association. Approximately half of those in attendance were youths who were fretful lest they be deprived of their winter sport in the local skating arena.

Association president John McNeil was chairman and in his remarks commented on the apparent lack of interest of sportsmen in the Association's activities. He stated it was no secret that the skating rink was in a deplorable physical condition. It had been decided by the Association's executive that the arena be operated this season and that minor repairs be made to the building. However, he warned, if nothing more than these minor repairs were made it would be too dangerous to operate the arena during the season 1947-48. He earnestly hoped that at this time next year the citizens would be ready to open a new civic centre building.

He praised the efforts of the Coleman Board of Trade in sponsoring a Rodeo on behalf of the Civic Centre Fund. The net profits from that Rodeo were now placed in a special fund known as the Civic Centre Fund.

He estimated that it would require \$35,000 to \$40,000 in cash plus approximately 60 per cent salvage from the present skating arena to build the civic centre at present contemplated by the sports' association.

Discussion was wide open for a considerable period. It was finally decided that increased interest by all citizens of the community was required and that a strong committee should be appointed to create that interest. The result was that the following were assigned the task of creating greater public interest in the civic centre project: H. Allen, chairman, J. McDonald, secretary, Mayor F. Aboussafy, George Ford, John McNeil, Ray Spillers and A. Balloch.

The first step towards this objective will be to send circular letters to all local organizations asking each organization to appoint a stipulated number of representatives whose duty it will be to attend a prospective meeting and that at least one of their representatives must be prepared to act on the key executive. Possibly in January or February when facts and figures have been secured by the committee a public meeting will be held in the community hall to debate the project and determine just how the money is to be raised.

### Mrs. Rose M. Dunlop Passed Away Monday Evening

Came To Coleman In 1905; Had Been Red Cross Secretary For Twenty Years; Funeral To Be Held Friday, Nov. 22.

Ill for the past eleven months, death came quietly to Mrs. Rose M. Dunlop, in her third street home on Monday evening at 7:30 o'clock.

Born in Picton, NS, she received most of her education in the U.S. She came as a young woman to western Canada, and in 1901 married Mr. Charles F. Dunlop, in Fernie, BC. In 1905 she and her husband came to live in Coleman, where she resided until her death.

She was predeceased by her husband in March 1918, Lieut. Dunlop being invalided home from overseas.

During her forty-one years residence in Coleman Mrs. Dunlop had taken an active interest, in community affairs. In the early days she was interested in the building and progress of St. Paul's United church, and was an ardent worker in the Women's Institute.

During the First Great War Mrs. Dunlop was Secretary-treasurer for the local branch of the Red Cross, and held that office until 1939, and in the past year was an energetic worker for the society. In 1909 she became the first Noble Grand of Victoria Rebekah lodge, and the first Warden of the Rebekah Assembly in Alberta, and

## Must Secure Permit to Build and Repair

Building regulations within the Town of Coleman are henceforth to be strictly adhered to. In future anyone desiring to renovate property or construct new buildings must receive a permit at the town office before proceeding with the work. Renovation or construction involving \$100 or more requires a permit costing \$2.00. Construction or renovation under \$100 will receive a permit gratis.

BUILDING COMMITTEE,  
Town of Coleman.

## Notice of Completion of Voters' List

Notice is hereby given under the provisions of section 108 of The Town and Village Act that the Voters' List of the town of Coleman has been prepared and that a copy of the said Voters' List is posted in the office of the secretary-treasurer.

The posted list is open to inspection during business hours.

Any qualified elector may make application for the correction of any error or omission in the said voters' list by serving notice upon the secretary-treasurer in writing on or before the first day of December.

Dated at Coleman, Alberta, this 21st day of November, 1946.

G. LEES  
Secretary-Treasurer.

## Curriers ATTENTION, PLEASE!

Skips are requested to have the names of their rinks into the hands of the secretary on or before SATURDAY, NOVEMBER 30th.

Persons who desire to curl and who have not been approached by a skip are asked to submit their names to the secretary by November 30th and they will be placed on a rink.

Persons placing their names after November 30th will be considered as spares.

GEORGE FORD, Secretary.

### Still On The Job

Women Continue To Keep Sharp Eye On Price Control

One thing about women, when they have been given a job to do they stick it out to the end.

A recent Quebec tour convinced Corinne de la Durantaye, assistant director of the consumer branch of the price board, that both French and English-speaking Canadian women are keeping as sharp an eye on prices and shortages as they did during the war.

"I never thought women as a whole could be so interested in economy problems," said the assistant director as she told of the crowded meetings where not only the housewives, but business and professional women, came to ask questions connected with shortages and price control.

The old Roman alphabet had no i, u, or w.

### WORLD HAPPENINGS BRIEFLY TOLD

LONDON. — H.M.S. London has replaced the city with a new gavel to replace one destroyed in the bombing.

Fire destroyed the Nakat packing corporation cannery near Ketchikan, Alaska, with a loss estimated at \$750,000.

Mrs. Catherine Bush, 96, who landed at the London airport recently, is the oldest person ever to fly the Atlantic.

Several thousand steelworkers in Scotland will get two weeks' holidays with pay instead of one week as from next April.

Sir William Tritton, 71, knighted in 1917 for his leading role in the invention and development of the military tank, died recently.

Claims for unemployment insurance totalled 28,555 in September, an increase of 3,440 from August, the Dominion Bureau of statistics reported.

Canada's post-war naval force of 10,000 men is not sufficient to protect her coasts, Vice-Admiral H. E. Reid, chief of the naval staff, told a dinner gathering at Bristol, Que.

In a speech marking the 29th anniversary of the Bolshevik revolution, Marshal Leonid A. Govorov declared in Moscow that Russia would "fight untiringly for a lasting, stable and democratic peace."

### British Film Drive

Series Of Pictures Showing Britain's Achievement In The Industrial World

The story of Britain's rehabilitation and reconstruction is to be shown to the world in a series of some 169 documentary films. These will be sponsored by the Films Division of the Government's Central Office of Information at an annual cost of \$5,000,000. The most important subjects to be treated by these documentaries now planned cover Britain's hydro electric achievements, developments in radio and television, shipbuilding, civil aircraft and scientific instrument making. A monthly film magazine, "This Is Britain," is also issued, featuring three items, one of which has an industrial angle wherever possible.

The films are distributed through two channels — non-commercially through the United Kingdom Government's various overseas information services and commercially through the best available trade channels.

### CONFESSES TO RESTAURANT ROBBERY

Evelyn C. Globaker is being held for questioning by Mobile, Ala., police in connection with a \$700 cafe robbery. The woman walked in to the police station at Dallas, Tex., and made a statement in connection with the robbery.

### Happy since she lost her "Middle-Age Spread"

Found Relief From Constipation

This middle-aged woman had two big worries. She was putting on weight and she was constipated. She read about Kruschen, and it gave her new hope. After three months on Kruschen, she wrote this letter:

"I had been constipated for some time. Like so many people, I began taking purgatives which in the end only made the constipation worse. Three months ago, I saw an advertisement for Kruschen Salts which gave me new hope. I thought, this is just what I need. I at once bought a bottle, and have been taking Kruschen every morning since. I can tell you now of the benefit received. I no longer suffer with constipation, and because I am more active, the 'middle-age spread' which was worrying me has completely vanished. I seem to have double the energy I used to have." (Mrs. A. W.)

Constipation and an increasing waist-line often indicate a slowing down of inner and outer activity. And when energy again ambles free!

Kruschen's part is to assist inner organs to be normally active—to clear out the waste matter that can drag down the system. Then how much better you feel. You are active again and unwanted pounds do not gain on you. Try the Kruschen treatment for constipation. 25c and 75c at your drug store.

### Newspapers Still Best Media For Advertising

Bureau of Statistics Give Summary Of Figures

Newspapers still are the best advertising media in Canada, according to a report of the Dominion Bureau of Statistics which, summarizing the activities of 47 advertising agencies in 1945, reveals that of the total billings 65.6 per cent. represented advertising in newspapers, magazines and other printed matter.

Radio advertising accounted for only 19.6 per cent. of the billings while the remaining 14.8 per cent. represented advertising expenditures in other media.

The survey covered agencies of the type which contract for space, radio or other advertising media and which place the advertising for clients on a commission or fee basis.

The total billings for the year 1945 reported by these agencies amounted to \$42,471,233, an increase of 15 per cent. over the \$36,944,785 reported by 41 agencies in 1944 and 45.3 per cent. over the figure reported by 49 agencies in 1941.

Agencies whose annual billings amounted to over \$2,500,000 reported 22.2 per cent. of their billings for advertising in various types of publications.

### Disappears Again

Falcon Island In South Pacific Has Been Rising And Sinking For Years

AUCKLAND, N.Z.—That jack-in-the-box island in the South Pacific is gone again.

The crew of a New Zealand government motor vessel, the Maui, reported that the island had disappeared. The spot where barren, uninhabited Falcon Island, in the Tonga (Friendly) group was supposed to be, but it wasn't there.

The island, which has been rising and sinking in the sea ever since its discovery 80 years ago, is—or was—350 miles from the island of Niuafo, where a volcano erupted recently and possibly caused Falcon to sink.

First observed as a reef in 1865, Falcon disappeared and reappeared through the years until in 1927 violent eruptions resulted in the formation of an island 300 feet high. Geologists landed there in 1928 and found it composed mainly of ash and rock.

### NOT HELPING MUCH

The Vancouver Daily Province says that despite all the warnings of our better sense, we still can't seem to find any better remedy for the high cost of living than doing something that is bound to make it higher.

### LIFE'S LIKE THAT

By Fred Neher

"I must have been on an awful binge... I don't remember coming here last night."

### PEGGY

### THE TILLERS

### "No no, Carrymore! You were supposed to rescue Miss Alor—not the crisp, crunchy, delicious Grape-Nuts Flakes!"

"Sorry, Mr. De Bill—but when I saw these malty-rich, sweet-as-a-nut Post's Grape-Nuts Flakes floating around out there, I guess I got carried away!"

"Well put 'em down over here near me. I could do with some of those carbohydrates for energy; proteins for muscle; phosphorus for teeth and

"Let's re-take this scene quick and get home for a couple of bowlfuls!"

### SCHOOL RECESSES

Need for strict observance of breaks in class routine in school is the subject of a pronouncement from the Department of National Health and Welfare, Ottawa. The health officers point out that recesses should be observed carefully. Class rooms should be given a chance to air, and both teacher and pupil given the benefit of a short spell of freedom from instruction and study.

### CHANGED INTO FREIGHTER

MONTREAL.—The Mayflower, official yacht for six United States presidents, is going to end her days as a freighter. An official of the Shaw Steamship Company said the United States Maritime Commission has turned the 50-year-old Mayflower over to Frank Shaw of Montreal whose bid of \$20,150.99 was the only one made. Mr. Shaw is marine superintendent of the shipping company.

### NOTES AND COMMENTS

#### NEED CIVIC CENTRE

Against its better judgment Coleman Sports' Association is permitting the opening of the skating arena for the 1946-47 season. Minor repairs are to be made in order to permit the opening of the arena. Next year, unless something is done between now and next October, the arena will definitely not be in a safe condition to open. It is time the citizens residing within Coleman school district 1216 realized the critical condition of its principal recreational centre and take steps to correct the situation. Coleman must not be without a skating arena.

A civic centre is in the talking stage. A strong committee has been assigned the task of stirring up interest in the project, and also securing facts and figures to place in front of the citizens. A civic centre will be an asset to the town, both for its youth and also for its older citizens, all will be able to enjoy its facilities. Its actual accomplishment could be achieved quite easily if all would obligate themselves towards its financial support. There will be two or three months for all citizens to give the subject some deep thought before they are called upon for suggestions and financial help.

#### RAILWAYS TO RESCUE

Sunday and Monday a steady snow storm caused snow to pile up approximately three feet blocking roads, cutting off the normal volume of electric power thus causing the mines to shut down temporarily, school children were kept home by fond parents or sent home by teachers who feared for their safety should the storm pile snow deeper than already experienced, milk deliveries to the homes were

non-existent. Only the old stand-by, the railway locomotive, snorting under its heavy load kept the Pass from being isolated from the outside world.

Both from east and west was transport cut off with the exception of the Canadian Pacific Railway's rolling stock. Mail, express and freight was brought into town by the CPR. Schedules may have been knocked into a cock-hat by the big storm but nevertheless the snorting iron horse was in there pitching and came through with the goods.

It is only times such as experienced on Monday that citizens come to fully realize the importance of railway transportation in our everyday lives. Rain or sleet, storm or calm the railway can always be depended upon to deliver the goods. Had it not been for the railway this week when all other means of transportation had been brought to a halt Coleman might have been in a sorry plight.

#### CRUELTY TO ANIMALS

This severe snow storm has brought horses down from the hills in number. These poor brutes are starving as they are unable to pick up vegetation from the ground and all garbage pails are piled high with snow.

Where are the youths today that always appear in plentiful numbers in the spring to go out into the hills for their horses? One of the cruellest practices that is indulged in year in and year out is for youths to bring horses from the hills in the spring, use them during the spring, summer and fall and then turn them loose in the winter to fend for themselves. It is a practice that should be condemned by all horse lovers.

association as best it can. To show in concrete manner that the club desires to aid the Association financially a donation of \$100 was voted by the members, this over and above the usual 10 per cent membership fee which is paid yearly to the Association.

Membership fees have to be paid on or before January 15, 1947, and all members must show their Association membership card for 1946-47 before secretary will receive their curling fees.

The club will encourage bonspiel rinks. These rinks will be able to practice especially on Saturdays and Sundays in order to get into shape for district bonspiels. All skips however must not pack rinks for the club schedule. All club rinks have to be submitted to the executive for its approval.

It was agreed that should only one member of a rink be absent due to sickness, business or at a bonspiel the rink must honor its schedule. Should two men be absent then the rink will be considered as not being able to honor its schedule.

The season will start with a \$1 bonspiel with turkeys being given as prizes. The bonspiel will be held at the week end when ice is first available with the schedule starting the following week day.

Due to the late arrival of the McGillivray Cup prizes last season the prizes were held over until Sunday last. Mr. Leslie McDonald, superintendent of McGillivray, was called upon to make the presentation. The winning rink was composed of Jim Kerr, skip, Jim Wilkie, Harold Maslen and Jack Jackson. The latter three were presented with beautiful electric clocks. Mr. Kerr was absent and he was given his award during the week.

All skips must have names of their rinks personnel in the hands of secretary George Ford by Saturday, Nov. 30. Persons desirous of curling are also asked to submit their names to the secretary on or before Nov. 30 at which time they will be placed on rinks.

#### ICE MAKERS APPOINTED

Coleman Sports Association executive announce the appointment of Herb Sherratt and Bill Gate as ice makers at the local ice arenas. The two men have already commenced work and aided by present weather conditions will have ice within a few days.

Advertising acts as a tonic to any head of business enterprise—

greater beauty, utility, efficiency and economy  
to bring you better living.

SERVING CANADIANS  THROUGH CHEMISTRY

**Looking  
Ahead**

with death for mustard  
weed...doodered manure...  
and light that bends.

Death for mustard weed:  
"Blasting a path of hope  
across weed-infested grain  
fields" is the way in which  
the Calgary Herald front-  
paged experiments made  
with C-I-L "Herbase" 2-4-D.  
Just ten days after spraying  
the test field, a mass of  
moisture-stealing mustard  
weed completely withered  
and died leaving the grain  
to grow unmolested.

Fortified manure: Barnyard  
manures need no longer be  
deficient in phosphate con-  
tent. The chemical product  
known as C-I-L Stable-Phos,  
economically fortifies the  
manure, preserving valuable  
nitrogen and at the same  
time has powerful deodorizing  
properties which makes  
its use most desirable.

Light that bends: That  
wonderful, crystal-like plas-  
tic, "Lucite", has many  
desirable properties, not the  
least of which is its ability  
to conduct light around  
corners. When you bend a  
"Lucite" rod the light actu-  
ally bends with it and shines  
out of the end. Thus "Lucite"  
is invaluable for dentists'  
instruments and is being  
used increasingly for in-  
terior lighting effects and  
for ornaments.

Further information on any of  
these products is obtainable by  
writing "Looking Ahead"  
C-I-L, P.O. Box 10, Montreal.

OPEN DAILY from 6 a.m. to 8 p.m.

## Severe Winter Storm

(Continued from Page 1)  
by a doctor from Vegreville who had been stalled. The latter's car has a four foot aerial on it and it cannot be seen in the snowdrift. Mr. Hanrehan reports a snow slide at the lake and conditions much more severe than are being experienced in Coleman. His plow broke down under the strain and repairs were expected from Macleod on Wednesday's west bound train. Tuesday's mixed train which is scheduled to arrive in Coleman at 2:30 p.m. arrived here Wednesday morning at 7:45.

### Open Pass Highway

The bull-dozer belonging to West Canadian Collieries and the Town of Blairmore were put into play Tuesday evening and opened the road from Bellevue to Coleman. Traffic is now passing between the three towns. The highway west of Coleman is still blocked tight.

### Milk Supplies

Milk is being trucked into Coleman in limited supplies. Queues line up within a matter of minutes when it becomes known a cafe or store has milk. Coleman Dairy and DeGroot's Dairy have been unable to bring their milk into town and since all their containers are full of milk they have been forced to separate the milk to salvage the cream. This means lost milk for the children but had they failed to separate, the cream too would have been lost.

William Oliver on Tuesday managed to get a big truck loaded with milk from his dairy west of Blairmore into the town of Blairmore where he got stuck. He managed to get the truck into a garage where he distributed the milk to all and sundry who were fortunate enough to know milk was available. In Bellevue a tractor got into the Bourguish Dairy and sufficient milk was taken from there to service Hillcrest which had been without milk for three consecutive days.

### Bellevue

A tractor was brought into play at Bellevue to clear main street. Unfortunately the driver got too near the hydrant in front of Paton's Baking Service store and snapped the hydrant off at the base. The heavy stream of water spread across the street and also into the basement of the Bakery where much flour was stored. No estimate of the damage has been received.

### Crows Nest

Joe Hanrahan, government roadman, reports drifts eighteen feet deep in and around Crows Nest lake. Five cars were stranded in the snow. A bus got stalled at Crows Nest station and the passengers were given shelter at Crows Nest C.P.R. Inn. Practically all passengers had gone home via train by Wednesday morning.

The snow is starting to set, making it a little tougher to cut through drifts.

### Bulldozer

Sam Sagoff's bulldozer has been working night and day in the service of the town and coal companies. Central school also required the machine to clear a road for the coal trucks.

**Coal Supplies Dwindling**  
Citizens' coal supplies were dwindling fast. Many were caught flat footed by the suddenness and ferocity of the storm and were out of coal immediately. Others with normal supplies are finding their stocks dwindling rapidly due to the heavy stoking necessary to combat the severe cold. McGillivray had a horse and sleigh hauling on Tuesday but it is reported the going was so tough that only two trips were made during the entire day. The only salvation will be to get the roads clear to both mines and also the residential section and allow the free pas-

sage of coal trucks. Consumers will have to combat snow in the back alleys to aid the delivery of their coal orders.

## Nine Clubs In Foothills League This Year

Lethbridge Herald—An optimistic atmosphere prevailed when the Foothills Hockey league met for its annual organization meeting in the Men's Club rooms, Claresholm, on Wednesday. Some nineteen elected delegates were present. Coleman and Blairmore will contribute teams to the league this year, thus enlarging the circuit to include nine clubs. All last years clubs will participate again—High River, Claresholm, Vulcan, Nanton, Okotoks, Staveland, Macleod. It is thought that the Foothills league will now be one of the largest circuits in Western Canada.

R. J. Doyle, of Claresholm, was elected president of the league with R. T. Ross, of High River, as vice-president. The secretary-treasurer is Earl Stauffer, of Claresholm, and he will act in the capacity of director of publicity.

Each club will have eight home games and eight games away from home. The top six teams will compete for the league championship and will be arranged in three pairs to play home and home, total points to count. One of three winners will receive a bye into the finals. The final games will consist of a best of three competition.

## Clan Donnachaidh Seeks Support For St. Andrew's Dance

Proceeds For Equipment; List Band Personnel.

(Contributed)

The committee in charge of the Clan Donnachaidh Society's St. Andrew's night dance are leaving nothing to chance to make it an enjoyable event. Tickets are selling steadily and a large attendance is anticipated.

We hope before the date of the dance to give everyone a chance to buy a ticket as the proceeds from the dance go towards equipping the band. To get drums and equipment the band requires a lot of money. The committee is hopeful that coming events sponsored by the Clan will be as well patronized as those in the past.

Following are members of the band with still a few prospective pipes for the pipes still in sight: Pipes: Miss M. Johnston, M. Kucklyn, E. Braden, J. McDonald, D. Jenkins, A. MacQuarrie, D. MacQuarrie, H. Henriett, G. Mellor and James Moore.

Drummers: Miss L. Johnston, A. Holstead, J. Lloyd, A. Supwot, J. Beila, V. Zur, A. Tarcon, H. Wanat and J. Moore.

We hope that everyone who think the band worthy of support will make an effort to do so and give the committee encouragement to continue their efforts to give Coleman a band of which every member of the community can be justly proud.

## Salvation Army Close To Pass Campaign Quota

Coleman Reaches Its \$500 Quota; Blairmore Canvass Incomplete.

Captain F. Smith, of the Salvation Army, has announced that Coleman has exceeded its \$500 quota in the Salvation Army's Reconstruction Appeal and that Blairmore and Bellevue-Hillcrest are expected to reach their allotted quotas shortly to put the Pass over its \$1150 objective.

Collections to date show Coleman with \$304, Bellevue-Hillcrest with \$370 collected with a \$250 quota and Blairmore has so far failed to make any report although the Canadian Legion is in charge of the campaign and will undoubtedly reach a \$400 quota before it stops soliciting.

The campaign will close Nov. 30. Those who have not yet contributed can still do so.

Capt. Smith expresses his sincere thanks to Coleman merchants who sponsored local newspaper advertising which undoubtedly aided greatly in so easily achieving the local \$500 objective.

## Overseas Yule Mail Should Be Posted Early

Usual warnings to the mailing public that they post their overseas Christmas letters and parcels early, are now being sounded by Canadian postal authorities. Christmas is only about six weeks away, and the public is being cautioned to mail as soon as possible because last minute postings, if general, might render it impossible for the post office to find sufficient accommodation on the last vessels leaving this country in time to ensure Christmas delivery.

The following deadline dates for surface transports have been set: Nov. 18, the continent, letters and parcels; Nov. 25, the United Kingdom, parcels; December 2, the United Kingdom letters.

Mail which has to travel longer distances should be posted proportionately earlier.

Gift parcels may now be mailed to individuals in the United Kingdom up to the maximum weight limit of 20 pounds. They are not restricted to one per month for a sender to the same addressee.

Postal authorities emphasize that parcels must be well packed in order to stand the handling. Christmas mails are extremely heavy and unless parcels are strongly and securely packed the goods are liable to be broken.

The 11-pound weight limit at the 12 cent-per-pound low rate still applies on Armed Forces parcels, which should bear fully-completed Custom Declaration form must be affixed to all parcels.

## Council Seeks Priority In P.O.W. Fence

To Tighten Building Regulations; To Endeavor To Get Bulldozer To Clear Streets.

Regular meeting of the town council was held on Tuesday evening. Present Mayor Aboussafy, Councillors Cox, Dutil, Jenkins, Ramsay and Wilson.

L. S. Richards, of Coleman Board of Trade, was present to solicit council's support in securing fencing from either the Lethbridge or Medicine Hat Internment camps. Council has third priority, the federal and provincial governments being the two bodies having higher priority than a town council. Council will support the board of trade in endeavoring to secure the fence and a letter; placing the order was authorized to be sent to War Assets Corporation immediately. The board of trade will take care of expense.

Mrs. Nick Deputak, relief recipient, submitted a list of clothing. Only certain items on the list were granted.

Fire Chief Antle's fire report was submitted. Five men are now residing above the council chamber in addition to driver Harold Willets, all being immediately available in case of fire. A single bed was authorized to be placed in a room in the second storey.

A sanitary report was submitted. Six homes are located on two adjacent lots at the east end of second street. A complaint was received from one party against an outhouse being practically up against her kitchen window. The proprietor of this particular lot will have the government's sanitary regulations presented by mail.

The sanitary report brought on a full dressed debate regarding building regulations and the issuing of building permits. It was the consensus of opinion that the town had been too lax in its building regulations and that stricter enforcement had to be made.

Henceforth all persons renovating their premises or building new projects must receive a permit before commencing work. Each month from now on the Building Committee's duty will be to examine all applications before secretary will be given power to issue such permits.

Trucks travelling around the corner and to the side of Excel Buildings and along the CPR track are a source of danger to pedestrian traffic. Since trucks are not supposed to use this area it will be barricaded to trucks by means of stout wooden posts being placed at the entrance to the area.

Mayor Aboussafy reported to council that due to present storm conditions the town's truck, which has the snow low attached, had broken an axle. Luckily it had been repaired in a matter of hours. Since roads were blocked freight and express had jammed the local CPR depot to the point that the agent threatened to halt further shipments from Calgary and Lethbridge. This could not be permitted, stated the Mayor, and asked council to authorize the bulldozer should it be available, or get the town plow with the aid of as many able bodied men as required to clear the road to the depot in order that merchants could get their goods from the depot and thus allow a normal flow of goods to reach Coleman by train. Council gave the Works & Property permission to get the roads open as quickly as possible and by any means at its disposal.

A lengthy letter was read from D. P. McDonald, town solicitor, regarding Coleman Light & Water. Much progress has been made and the solicitor is ready to present the town's case just as soon as Mr. Blackstock, chairman of the board of public utility commissioners, will set a date.

## \$500 OBJECTIVE

Coleman Grands Intermedie Hockey Club have set themselves an objective of \$500 to turn over to the Civic Centre Fund at the end of the hockey season. The club proposes to sponsor numerous functions over and above its hockey schedule in order that it may reach its \$500 objective.

## THEATRE NOTES

"Guest Wife," the latest film offering of producer Jack H. Skirball, will have its premiere at Cole's theatre on Saturday. This racy, romantic comedy co-stars Claudette Colbert and Don Ameche in a fast moving tale of American life which is laid in the post-war era.

The film tells the story of a middle-western bank executive (Richard Foran), who magnanimously "loans" his wife (Claudette Colbert) to an old college chum (Don Ameche) to impress the latter's boss, a sentimental newspaper publisher (Charles Dingle).

This unusual act of generosity leads to numerous amusing complications when the old college chum and the bank executive's wife are photographed in New York as "Mr. and Mrs." and the photograph finds its way back to the town in which the banker lives. Meanwhile in New York City, the "lend-lease" wife arrangement causes a series of uproarious embarrassments for everyone concerned.

## "The Mail MUST Go Through"

• The tradition that "the mail must go through" is the watchword here at EATON'S. Endless belts and gravity chutes carry your parcels from packing areas to dispatching departments. 1½ cups flour  
2 tsp. Magic Baking Powder  
1 tsp. salt  
1 cup. celery salt  
½ cup. white pepper  
5 lbs. shortening

Sift together flour, baking powder, ½ teaspoon salt, celery salt and pepper; add 1 tablespoon shortening and mix in thoroughly with fork. Add milk and stir until blended. Mix remaining two tablespoons shortening in 9" frying pan, and cook onions until soft. Add tomato soup, remaining ½ teaspoon salt and ground meat; bring to boil. Spread baking powder mixture on top of meat mixture and bake in hot oven at 425° F. for about 20 minutes. Turn out upside down on large plate. Serves 8.

MADE IN CANADA

## An Urgent Problem

AUTHORITIES IN AGRICULTURE are of the opinion that the importance of soil conservation cannot be overestimated in Canada today. That the Dominion government is fully aware of the serious nature of this problem is demonstrated by the extensive work which has been undertaken under the P.F.R.A. in many districts in Western Canada. In addition, there are many organizations which have recognized the need for action in this matter and a great deal of valuable information has been placed at the disposal of Canadian farmers. Reliable advice has been made available through provincial departments of agriculture, district agricultural representatives, agricultural magazines, universities and numerous other sources, and farmers who have problems of soil erosion have the advantage of these services in combatting them.

## Cash Income Is Reduced

A short time ago the Royal Bank of Canada published an interesting and informative article on the subject of soil conservation and that article has been followed by a pamphlet on the same subject written especially for farmers. Entitled "Making Money by Saving Soil" the booklet deals with many interesting aspects of the problem of soil erosion and the methods of counteracting this grave menace to Canadian agriculture. Among other things, it deals with the subject of cash income from farm products. During the first six months of this year, the writer states cash income was reduced by 50 million dollars for Saskatchewan farmers, 33 million dollars for the farmers of Alberta, and seven million in the province of Manitoba. This reduction is not attributed entirely to lack of soil conservation, but it is pointed out that in North Dakota a survey of 197 farmers revealed that 271,000 more bushels of wheat had been produced on 5,000 less acres of land after measures had been taken to combat soil erosion.

## A Commendable Public Service

It is admitted that soil erosion is just one factor determining the success or failure of a season's crop. Wind, moisture, frost and similar forces are beyond the control of the farmer, but the conservation of his valuable top-soil is something which he can control and it may have a great bearing on the cash returns for his year's work. The concluding paragraph of the pamphlet mentioned above says: "The frightful force of soil erosion is demanding immediate attention in every part of Canada. Any large scale project needs education, and children, growing up to their inheritance, should be trained in school, through textbooks and motion pictures, to awareness of what is going on. Today's struggle by Canada's farmers is no flash-in-the-pan, ending in another beginning of the cycle of decline. Besides preserving their land today for their own benefit, and as an inheritance for their children, they must see that their children are taught how to continue the good work." In publishing information and advice on this important subject the Royal Bank is performing a most commendable public service.

## Price Control And Rationing Information

Q.—What are the areas in Saskatchewan in which evaporated milk is to be sold by ration coupon only?

A.—The cities of Regina, Saskatoon, Swift Current, Moose Jaw, Prince Albert, North Battleford and the area within 15 miles of the city hall in these centres, the cities of Yorkton, Weyburn, and the town of Melville and an area of within 10 miles; the towns of Roseworth, and Melfort, and an area of five miles around these centres; the town proper of Estevan.

Q.—Who may apply for coupons for the purchase of evaporated milk?

A.—Mothers of babies living in the above-mentioned restricted areas who need the evaporated milk for the infant's formula, and also persons whose health depends on evaporated milk for a suitable diet.

Q.—Is it necessary to have a doctor's certificate before applying for coupons for evaporated milk?

A.—The first application for coupon sheets for infants must be signed by the mother or guardian. Renewals must be signed by a doctor, public health nurse, day nursery, baby clinic or a medical certificate signed by a doctor may be presented. In cases where evaporated milk is required in the diet of persons because of illness, the applicant must have a medical certificate.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

## SMILE AWHILE

An old farmer and his wife were standing before their pigsty looking at their only pig, when the old lady said: "Say, John, it will be our silver wedding anniversary tomorrow. Let's kill the pig!"

John replied with disgust: "What's the use of murdering the pig for what happened 25 years ago?"

Hubby: "Isn't dinner ready yet? I have a good mind to go to a restaurant!"

Wife: "Well, please wait ten minutes."

Hubby: "Will dinner be ready then?"

Wife: "No, but in ten minutes I can change my dress and go with you."

"Lend me five pounds, old man," said the first man.

"Lending," said the second man, sentimentally, "often spoils friendships, and ours is worth more than five pounds."

"All right—make it ten."

Customer: "It's the old story, Mr. Jones. The woman always pays you know."

Grocer: "Well, if you had a look through my books you'd see that some of them don't, Mrs. Smith."

"I don't like the look of that halibut," said the lady customer.

"Lady," asked the market man, "if it's looks you're after, why not buy gold fish?"

Little Willie, after an absence of two days, arrived back at school.

"Didn't your mother write a note?" asked his teacher.

"Yes, ma'am, but I forgot to bring it," replied Willie.

"Well, young man," went on the teacher, "why were you away?"

"I don't know, I didn't read the note."

Month after month a firm sent its bill to a customer and finally received this reply:

"Dear Sir: Once a month I put all my bills on the table, pick five at random and pay these five. If I receive any more reminders from you, you won't get a place in the shuffle next month."

"Here comes the parade. Where's Alice?"

"She's upstairs nailing her hair."

"What's the matter, can't we afford a flag?"

"Now, my son," said the father, "tell me why I punished you?"

"That's it—first you panned the life out of me, and now you don't know why you did it!"

Rastus (throwing down four aces): "Dar, guess I wins dis ole pot, all right."

Sambo (angrily): "You play dis game honest, big boy, play it honest. I knows what cards I dealt you."

Quill pens were first used in the 18th century.

## CONVICTED SLAYER FREED

ON RAIL—Convicted of involuntary manslaughter in the slaying of her husband, Bridget Waters' first act after being freed on bail was to remove her baby, Frank, from hospital at Las Vegas, Nev. The young war bride faces sentence of up to five years' imprisonment.

## JUST FOR REVENGE

When Sir Ernest MacMillan, the Toronto symphony orchestra's conductor recently inspected music owned by the Mendelssohn choir, he found that the choir had confined their gnawing activities to one score—The Pied Piper.

Copper gets its name from the island of Cyprus, where it first was found and called cuprum. Later, it was called cuprum, and finally copper.

## Advice Given For Care Of Infants

Common Sense Can Prevent Most Accidents

Fatal accidents among infants are common—and common sense can prevent them.

Mrs. Anne H. Barnard, director of the Women's Division of the National Safety Council, Chicago, knows the hazards and how to avoid them. Here is her advice to young mothers.

Accidents caused 55.9 per cent. of the deaths of children in the United States under five last year—the lowest rate on record for this age group. Mrs. Barnard says most child deaths were caused by burns and suffocation. Poisoning, drowning and falling contributed to the total of 7,512 child fatalities occurring in 1944.

She says even the safety pin is unsafe because the dangers of pricking a child or of its being swallowed. A mother so often sets a poor example by holding safety pins in her mouth while changing a diaper.

Safety pins should be stuck into the mattress or cake of soap. When not in use the pins should be closed and put out of reach of busy little hands.

A safety pin should not be used to fasten a blanket around an infant. This practice, a survey shows, is the principal cause of death by smothering.

When placing a baby in its crib, Mrs. Barnard suggests that no pillow, no fuzzy or painted toys, no blankets in the bed with him. A mother should be sure the point on the child's bed does not contain lead, lest the infant's chewing tendencies bring about lead poisoning.

Insecticides, medicines, sleeping tablets—it takes only one—deodorants and lye should be kept away from a child's reach.

Electrical appliances should be carefully checked for possible faulty connections. Electric wall outlets should be protected, and a mother should be cautious with electrical heaters when bathing a child.

Protectors should be placed around steam and hot water radiators. Mothers in rural communities should watch their babies when exposed stove are used for heating. Walkers and creepers should be kept indoors when leaves and brush are burned during the fall cleanup.

When a mother is busy in the kitchen, baby should be placed in a pen or highchair. Many children have been scalded to death because of over-fascination in mother's work.

Unprotected wells, cisterns and garden fish ponds are potential hazards.

Mainly, Mrs. Barnard says, it's a good idea not to leave a tiny tot for too long.

## HEALTH AT HOME

It's easier and cheaper in the long run to use care in buying and serving food, according to nutrition experts. From the Department of National Health and Welfare comes a warning that the home where meals consist of hashed-up foods and where some of the essential elements are overlooked is likely to house an irritable, ailing brood. Fresh fruits and vegetables, Canada Approved bread and other healthful foods, will help the housewife keep the family happy and healthy.

A single root will produce peppermint plants for about four years.

## When your little one catches cold—

Tonight... do what most mothers do to relieve miseries of children's colds: Simply rub warming Vicks VapoRub on throat, chest and back at bedtime. Results are so good because VapoRub's special relief-bringing action starts right away and keeps on working for hours during the night while the child sleeps. Often by morning most misery of the cold is relieved. Remember, Mother... when your children catch cold... be sure you get time-tested Vicks VapoRub.

## GEMS OF THOUGHT

## APPLAUSE

Neither human applause nor human censure is to be taken as the test of truth; but either should set us upon testing ourselves.—Whately.

It is difficult to say which may be most mischievous to the human heart, the praise or the dispraise of men.—Mary Baker Eddy.

Man's first care should be to avoid the reproaches of his own heart, and next to escape the censures of the world. If the last interfere with the first it should be entirely neglected.—Addison.

Great minds had rather deserve contemporaneous applause without obtaining it, than obtain without deserving it.—Colton.

Praise from the common people is generally false, and rarely follows the value than the virtuous.—Bacon.

The silence that accepts merit as the most natural thing in the world is the highest applause.—Emerson.

## WORTH TRYING

An American medical journal, urging the greater use of "psychosomatic medicine," warns doctors that they should not be content with a physical check-up of a sick patient, but should also X-ray his personality by means of asking 500 questions. The patient then gets sick of being sick and is ready to call it off.

Insulin, the remedy for diabetes, was discovered just 25 years ago.

What was that word?

•••Brisk! That's the word the experts use. That's my word, too, to describe the fresh, lively, full-bodied flavour of Lipton's Tea. Get a new slant on tea pleasure. Ask your grocer today for brisk tasting Lipton's Tea.

TASTING LIPTON'S TEA

# PREDICTS CANADA'S PRICE CONTROLS WILL WITHSTAND ANY DROP IN WORLD PRICES

KENTVILLE, N.S.—A prediction that Canada's price controls would enable the Dominion to withstand any possible "noedive" in world primary products prices was made here by Finance Minister Isley.

In a speech prepared for delivery at a meeting here, Mr. Isley said that "considering the high prices at which cotton, wheat and some other products have been selling in the United States or elsewhere in recent months, this (price drop) may be inevitable."

"If so we have the assurance that Canada is in a position to withstand a shock of this kind in a way that was not possible in 1920 or 1929. By refusing to allow Canadian prices to follow world prices, we have insured ourselves substantially against the hardships consequent upon deflation in the future."

The government's aim, he said, has been "to get rid of any control safely could drop but not to get rid of those which were still needed."

"I should like to make it clear that the action of the United States government a week or so ago in abandoning price control does not mean that Canada must or will take similar action."

"We have no intention of removing price controls except in the orderly manner the government now is following."

"I do not pretend to know where the cost of living will ultimately settle. I do know, however, that the official cost of living index in the United States is now nearly 50 per cent. above pre-war (as compared with 25 per cent. in Canada), and that roughly one-third of this increase has happened since the end of the war."

## HAVE NO EFFECT

Canada's Prices To Stand Up Against U.S. Rising Tide

OTTAWA.—The rising tide of uncontrolled United States prices is not expected here to wash much cash out of the Canadian consumer's pocket-book. Canada's prices are seen by federal officials as able to stand up to the pressure generally.

Despite the close economic tie-in between the two countries, cushions of various kinds serve to insulate Canada considerably.

Some of these are:

1. Lowering the excise tax on some items to permit their purchase at higher U.S. prices and sale in Canada at unchanged prices.
2. Changing the markup system on some articles as was followed when U.S. farm implement prices rose some time ago.
3. Taking the last ceiling price set by the now-defunct O.P.A. as the Canadian ceiling.

A firm hand on Canadian ceilings generally.

The recent revaluation of the Canadian dollar to parity with the American dollar also was seen as giving the Canadian buyer an advantage of around 10 per cent. that he didn't have previously in making U.S. purchases.

Prices board officials scanning reports of increased prices in U.S. soaps and non-ferrous metals said Canada had her own soap economy and she doesn't buy any lead, copper or zinc—leaders in the metals hurry—from the United States.

Government sources said, too, it was the intention to keep Canadian ceiling prices clamped down tightly on these metals.

## STILL DECLINING

Butter Production During October

Dropped Almost Nine Per Cent

OTTAWA.—Production of creamery butter in Canada during October dropped to 21,807,000 pounds from the 23,926,000 pounds produced in October, 1945, down almost nine per cent., the Dominion bureau of statistics reported.

All provinces shared in the decrease, which brought cumulative output for the first 10 months of this year to 245,994,000 pounds, against 268,752,000 in the corresponding period of 1945, a decline of 8.5 per cent.

Commenting on the decline, prices board spokesmen said it still was too early to determine whether the board would have to follow last winter's course and cut the individual butter ration, at present at six ounces per person per week.

## PARCELS FOR BRITAIN

LONDON.—The food ministry announced arrangements had been approved for schools in the British dominions to send gift parcels of food for distribution among schools in Britain. The ministry said that "overseas schools wishing to participate may consign parcels to the overseas gifts (food) allocation centre" of the food ministry.

The "Queen Elizabeth" weighs 83,673 tons.

**ELECTRONIC PIANOS DEVELOPED IN VANCOUVER**—Vancouver technicians, utilizing a magnetic principle never before embodied in a musical instrument, have produced an electronic piano. Instead of wire strings, it has tuned bars of magnetized steel as thick as a pencil set solidly in a heavy casting. When a bar is struck by a heavily-padded mallet, no mechanical sound is produced, but the slight vibration sets up a moving magnetic field which cuts across a coil of wire, inducing an electric current in the coil. Amplified, the current drives a speaker. Piano never needs tuning.

## HAD TO BE USED

Pilot Forced To Delay Landing Until Gasoline Tank Was Empty

PRESTWICK, Ayrshire, Scotland.—A British Overseas Airways Corporation Liberator flew around Prestwick airport to use up 2,500 gallons of gasoline before making an emergency landing while ambulances, doctors and fire engines stood by below. The craft finally touched down safely.

The plane with a crew of five and three staff passengers took off from Prestwick for Montreal via Gander airport, Newfoundland, when the undercarriage broke and the pilot was unable to operate the gear to lift one wheel.

## WELL EQUIPPED

SYDNEY, Australia.—A man convicted in New South Wales police court of attempting to steal a pig, explained his assortment of apparatus to the puzzled officials. He carried a torch to light the pig, a hammer to stun it, a knife to stick it and a sugar bag to carry it away.

## WIN TOP HONORS

Saskatchewan Girl Gets Best Score In Seed Judging

TORONTO.—A 17-year-old Saskatchewan girl, Violet Domier, was the first of her sex ever to win top honors in the Toronto Winter Fair seed judging competitions open to members of the national council of boys and girls clubs.

Miss Domier had the best score of 10 competitors representing five provinces.

Teamed with Robert Wylie, a fellow-member of the Norquay Seed Grain club, of Norquay, Sask., north of Yorkton, she brought the seed-grain judging title to her province. Two club members represented each province and competitors judged wheat, oats, barley and small seeds.

## WOULD LIKE SHARE

LONDON.—Sir Walter Layton, chairman of the rationing committee of the Newspaper Supply company, accused the United States of hogging the world's newsprint and challenged Americans to share it.

# SECOND ESTIMATE OF CANADA'S 1946 WHEAT CROP PLACED AT 418,000,000 BUSHEL

## PRICES ADVANCE

Soap And Other Scarcer Products Cost More In United States

NEW YORK.—Prices of some scarce products, led by soaps and non-ferrous metals, jumped out from under the now-obiterated Office of Price Administration ceilings in the United States with advances ranging from 10 to about 50 per cent.

While many manufacturers and dealers held to the old price lines on literally hundreds of items, others wavered or announced increases.

Most soap manufacturers said wholesale prices on their products would be increased by 50 per cent.

The prices of lead, copper and zinc spurred upward almost simultaneously. Kennecott Copper company, the leading United States producer, reported a boost of 3 1/2 cents to 17 1/2 cents a pound.

## AUTOMOBILE PRICES TO REMAIN AT SAME LEVEL

OTTAWA.—Announcement by General Motors corporation in Detroit of a \$100 increase in the retail price of its automobiles has no direct bearing on the price of Canadian-made cars, the prices board said.

Canadians will have to pay extra on imported General Motors cars but the cost of made-in-Canada automobiles remains at the present level.

A board spokesman said that a Canadian manufacturer may increase prices only if he proves financial necessity.

## RECORD CROPS

WASHINGTON.—Favored by ideal fall harvest weather in October, the United States is virtually assured its largest output of crops in history, the agriculture department reported. A record production had been forecast previously, but unusually good weather the last four weeks, which improved acreage yields of many crops, brought the prediction to realization.

OTTAWA.—Canada's 1946 wheat crop was placed at 418,000 bushels in the second estimate of production of field crops by the Dominion bureau of statistics.

The first estimate, issued Sept. 12, placed the wheat crop at 440,567,000 bushels. The 1945 crop was 305,912,000.

Oat production for all Canada this year was estimated at 399,500,000 bushels, barley at 159,900,000, rye at 6,900,000 and flaxseed at 7,700,000.

Wheat production in Saskatchewan was estimated at 198,000,000 bushels, against 216,000,000 in the first estimate, while output in Alberta was placed at 137,000,000 bushels against 142,000,000. Manitoba's production now was estimated at 63,000,000 bushels, up 1,000,000 from the earlier estimate.

Prairie production of oats was estimated at 270,000,000 bushels and barley at 145,000,000.

Noting that the second wheat estimate was lower than the first, the bureau said the decline "may be largely attributed to unfavorable harvesting conditions in Saskatchewan and Alberta subsequent to the September estimate, but may also be due in part to earlier underestimates of the extent of damage caused by the July frosts."

It added that unsatisfactory harvesting weather and frosts also largely accounted for a reduction in the oat estimate of some 12,000,000 bushels and declines of 4,300,000 bushels in the barley estimate, more than 1,000,000 in flaxseed and 675 bushels in rye.

# Increase Seen In Production Of Commodities

OTTAWA.—The labor department said that in the wake of recent strike settlements the outlook of Canadian industry is "optimistic" and predicted early "stimulated" increases in steel, electrical apparatus, automobile, rubber, chemical and brass production.

Of 26,000 workers involved in disputes at Oct. 1, all but about 700 now had returned to work.

"An extensive flow of goods (soon) will close the general demand-supply gap and relieve inflationary pressure, a department news release said. "The heavy consumer demand for all types of goods will probably maintain manufacturing employment in the next few months, thus offsetting its normal seasonal decline."

The overall situation has changed greatly since October, 1945. Since then the Dominion's economy had absorbed "thousands" of war workers and more than 600,000 veterans. Unemployment now was "less than three per cent. of the labor force."

"In the industrial regions of Quebec and Ontario, employment conditions show a marked improvement over those of October, 1945. The trend of activity in the seasonally-affected prairie and Pacific regions shows a steady recovery from the post-war low in the spring of 1946 to a level slightly above that of October, 1945."

"Unplaced applicants registered with the national employment service Oct. 31 totalled 134,000, a decrease of 8,000 from the Sept. 30 total. The latest figure was 26,000 less than at July 31."

Most jobs were found in Ontario, Quebec and the Maritimes, due to strike settlements and expansion in the logging industry. Unemployment increased in the prairies during October and remained stable on the Pacific coast.

At the end of October there were 133,000 unfilled vacancies in the Dominion, a 9,000 reduction from the total of 142,000 at Sept. 30.

Unplaced applicants and unfilled vacancies (in brackets) in western national employment service offices at Oct. 31: Calgary, 2,681 (958); Edmonton, 2,338 (2,206); Regina, 925 (581); Saskatoon, 1,479 (554); Winnipeg, 7,111 (8,525); Fort William, Ont. 813 (1,850); Westminister, B.C. 1,572 (444); Vancouver, 11,818 (3,200); Victoria, 1,900 (603).

## SALVAGE ATTEMPT

CAPTOWN.—Attempts are being made to salvage the 8,093-ton British steamship City of Lincoln, which sank with a 12,000-ton (8,000,000) cargo near the Cape of Good Hope after striking a rock. An inquiry is to be held concerning the wreck.

## STUDENTS KILLED

SASKATOON.—Two University of Saskatchewan students, Franklin Tomashewsky and Adam Gingsa, both of Brooks, Sask., were killed and three other occupants of their car were injured in a collision with a two-ton truck seven miles south of Cudworth, Sask.

## WANTED FREEDOM

Polish War Veterans Have Come To Canada As Special Immigrants

HALIFAX.—A happy queue of bearded Polish war veterans lined up a big transport onto the Canadian soil which has adopted them.

Capt. Jerzy Marcinowski, Polish commandant and British 8th army veteran, spoke for the 1,700 special immigrants when he said: "We are in Canada because we want to live like free men. There is no freedom in Europe today."

This was the first draft of 4,000 Polish soldiers who fought with the Canadians in the Mediterranean theatre and recently were selected for farm work—preferring this rather than return to their own country.

The Poles, big, husky, predominantly blond men, were wearing well-worn British-type uniforms bearing the shoulder flashes of the British 8th army and wearing their own distinctive lapel insignia. Most of them were proud Polish battle honors that included Ribbons for Tobruk and Monte Cassino.

The only member of the group who had been in Canada before was Pte. Joseph Zatorski who lived in Toronto for seven years up to 1926. He had made enough money as a foundry moulder to go back to his homeland, buy a farm, get married and found.

"But then the Russians and Germans came," he recalled, "and I lost everything."

# FIELD MARSHAL SMUTS SERVED NOTICE THAT SOUTH AFRICA WILL ANNEX MANDATED AREA

LAKE SUCCESS, N.Y.—The Union of South Africa served notice that it will annex the mandated territory of Southwest Africa whether the United Nations general assembly approves it or not.

Field Marshal Jan Christian Smuts, South Africa's prime minister, threw his take-it-or-leave-it proposals into the assembly's trusteeship committee in the face of Soviet-led hostility to the South African proposal to take over the territory.

Southwest Africa, owned by Germany until the end of the First World War, has been administered by South Africa since then as a League of Nations mandate.

The South African announcement came after Great Britain had thrown its weight behind the annexation bid.

Arthur G. Bottomley, British delegate, warmly defended the South African proposal before the United Nations trusteeship committee. Soviet Ambassador Nicolai Novikov previously had denounced the proposal as a flagrant violation of the UN charter.

Bottomley said that the UN charter did not force any nation to put its mandated territory under trusteeship and that "credit is due to the South African government" for giving other nations the opportunity of expressing any opinion on its proposal.

Bottomley said that the United Kingdom was "satisfied" with the

polls taken by South Africa to determine whether the natives of Southwest Africa wanted annexation. Novikov had denounced the South African figures as a "fictitious demonstration."

Dimitar Vlahov, following for Yugoslavia the line laid down by Russia, told the committee that "Yugoslavia energetically opposes" the South African proposal.

"We'll never permit aggression in any way," Vlahov said.

The Yugoslav echoed Novikov's assertion that the proposed annexation violated charter principles, and charged that the South African poll had been confined to tribal chieftains and thus did not reflect the wishes of the majority of the natives of Southwest Africa.

Guba's Dr. Guy Perez Cienfuegos also attacked the proposal as "contrary to the letter and spirit of the charter" and urged a UN trusteeship for Southwest Africa.

Smuts flatly rejected demands by Russia and Yugoslavia and some of the smaller United Nations that Southwest Africa be placed under UN trusteeship.

"In view of the clearly expressed wishes of the inhabitants of Southwest Africa," Smuts said, "it would not be possible for the Union government to submit to a trusteeship agreement in conflict with those wishes."

# Buy Christmas Seals . . .

Help To Make Our Homes Safe From Tuberculosis

During 1946, the Preventive Programme of the Saskatchewan Anti-Tuberculosis League was pressed with unabated zeal and results show that there can be no doubt it is succeeding in reducing tuberculosis in the province. The three mobile fluorographic units visited 157 communities where over 145,000 persons were examined at the expense of the Christmas Seal Fund. The 12 regular clinics were in operation throughout the year and family physicians were visited by the League's consultants.

Tuberculosis is needless and preventable. There is no need for tuberculosis to be No. 1 Disease Killer between the ages of 15 and 35.

If Christmas Seals have not reached you by mail you can obtain these Seals by writing to the Christmas Seal Committee at Fort San. Won't you help to continue and extend this Programme of Prevention so that this province can continue to be the safest place in the world for a child to be born.

BUY CHRISTMAS SEALS!

LIKELY CANDIDATE FOR PRESIDENT in the 1948 elections, Dewey's popularity seems to have gained strength in New York. He polled nearly a million more votes than the Democratic candidate, James M. Mead.

### LOCAL NEWS

Mrs. Jim Wilkie was a Calgary visitor last week.

Miss Ethel Burtinik is visiting at New Westminster.

Mrs. T. B. Smith was a recent Calgary visitor where she was the guest of Mrs. H. C. McBurney.

Mrs. B. Weaver, of New Westminster, is the guest of Mr. and Mrs. Mike Wavrechin.

Mrs. Sam Howarth was admitted to the local hospital as a patient last Thursday evening.

Mrs. M. Simla and son, Walter, of Kelowna, BC, are in town spending a holiday with friends.

Mrs. S. Penney and Mrs. E. Hill are visiting in Calgary. Mr. Steve Penney is a patient in a Calgary hospital.

Mr. and Mrs. Roy Thomas, of New Westminster, are guests of their daughters, Mrs. R. Foster and Mrs. A. Jones, and families.

Mr. and Mrs. Les Barrows and family, of Milk River, are visiting at the home of Mrs. Barrows' parents, Mr. and Mrs. D. Hoyle.

Mr. and Mrs. Walter Pettifor, of Maple Creek, are in town this week visiting their daughter, Mrs. J. Powlyk, Mr. Powlyk and young granddaughter.

Miss Gladys Fry, a member of the Coleman Cash Grocery staff, left on Thursday morning's train for Vancouver where she will reside. She will join her sister Eileen who went to Vancouver last August on a vacation and decided to remain in the coast city. It is understood Gladys already has employment in the city.

Mrs. Dennis Staley, niece of Mrs. Hoyle and a war bride, has been visiting her uncle and aunt, Mr. and Mrs. David Hoyle, during the past few days. She returned to Medicine Hat on Tuesday.

The Journal acknowledges with thanks renewal subscriptions received during the week from Mrs. Robert Burt, of Vancouver. Mr. and Mrs. Burt and Mr. and Mrs. Wm. Chapman join in sending greetings to their Coleman friends.

Miss Eira Jones, of Claresholm and formerly of Coleman, is now a student at Alberta University and requests that she have her Journal sent weekly to Edmonton, thus keeping her in close contact with news happenings in the old home town.

Mrs. A. Beveridge, Mrs. P. Smith and Mrs. G. Ford travelled to Calgary at the week end and were forced to extend their visit in the city for an additional period due to the heavy snow storm in southern Alberta and particularly in the Pass.

Mrs. Joe DeCecco, who has been vacationing in California the guest of her daughter, Mrs. R. Rinaldi, for the past three months, has returned home. Enroute she stopped off at Kimberley for several days where she visited her daughters, Mrs. Redisky and Mrs. Fabro.

23 tables were in play at the Legion Whist Drive on Friday evening. Prize winners were Mrs. Walter Nelson, Mrs. Jack Rogers, Roy Whitehouse and Mrs. Melville Cornett.

People shop where they are invited—that's why it pays to advertise.

### Mrs. Rose M. Dunlop

(Continued from Page 1) has remained an active member in that organization.

Early in the year her health began to fail, until this summer it was necessary for her to go to Calgary for treatment, returning home six weeks ago.

Her two daughters, Mrs. A. F. Gillis, of Merritt, BC, and Miss Winnifred, were at her side when she passed away. Also surviving are two grandchildren and three sisters.

Services will be held in St. Paul's United church, Friday, Nov. 22nd, at 3 p.m., Rev. Dr. Magowan officiating. Due to the extreme weather the remains will be placed in the Vault in Blairmore until conditions permit burial in the Union cemetery at Coleman.

### L. S. Richards

(Continued from Page 1) getting support to his motion that the provincial semi-finals in the Intermediate play-offs be given to the smaller towns rather than to the cities who today were being fed a high brand of senior and junior hockey.

The officers for 1946-47 are L. S. Richards, president; Wm. Gate, vice-president; R. Spillers, secretary-treasurer; executive: L. Shannon, S. Murdoch, H. Allen, J. McDonald, V. Lilya, J. Cousins and A. DeLuca.

The trainer is Bert Garrett, the coach and assistant coach are to be chosen by the executive.

Burns Shamrock Hockey club, Calgary, have already asked the

local executive for an exhibition game in Coleman. This invitation is to be accepted just as soon as ice is available and the players have got into reasonable shape.

In order to show its support of the proposed civic centre fund the meeting approved a motion that a percentage of the net profits from the season's operations are to be turned over to the fund.

In order to raise funds a dance was proposed to be sponsored about the middle of December. A committee was chosen to handle this work.

### THANK YOU

Coleman Dominoes Softball Club expresses thanks to the many dance lovers who so ably supported the past two dances sponsored by the club. The proceeds from each dance, amounting to over \$150 have been turned over to Steve Mysyniuk, injured during the playing season with a resultant loss of work.

## LATEST NEWS ABOUT GENERAL MOTORS DELIVERIES

Everybody from factory to dealer is doing everything that  
can be done to speed deliveries to you

Because of the continued and unavoidable shortages of various materials, production of new cars and trucks has remained behind our expectations. As a result, shipments of new cars and trucks to dealers for delivery are still far below the level we and the factory had hoped to attain by this time.

We know that General Motors is doing everything possible to step up its production totals—to ship more and more cars and trucks to us and to its hundreds of other dealers throughout Canada... and we know, too, that we are assured of getting our full proportionate share of the current and future output.

Of this you may be sure: We shall continue to make deliveries

of cars and trucks to our customers as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you do take delivery of your new General Motors car or truck.

Keep Your Present Car or Truck Running  
Meanwhile, may we suggest that you safeguard your transportation by bringing your car or

truck to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new General Motors car or truck comes along.
